- ✓ Do you have compliance or access issues with your current technical implementations?
- ✓ Do you have a sourcing strategy that provides you access to the right resources at the right place and the right time for the right investment?
- ✓ Are you looking for experts to help complete an upcoming project on-time?

MYTecSoft's Professional consulting service provides business values for our customers through technology transformation that increases competitive advantage, customer loyalty and improves business performance. It is known fact that a smart company concentrates on its core business competency and leaves other tasks to those with specific expertise. Let the specialists at MYTecSoft handle it for you.

To shift focus from Techno-centric IT to Business-centric IT, MYTecSoft brings IT consulting services that addresses aspects of:

- Reducing Cost
- Increasing Agility
- Enabling Transformation

Why MYTecSoft

- **Strong Resources** with expertise in Programming (J2EE, Dot Net, ABAP and Perl), SAP Consulting (SD, FI/CO, HR, PP, MM), Support Staff.
- Ensuring **consistent** high-quality and on-budget delivery with globally distributed, near-shore software development.
- Client Centered Innovative Consulting Services.
- Provide customers with offshore and onshore consulting
- Only accepts assignments after a thorough examination of all the issues indicates a significant **ROI** to the client.
- Is structured around very high levels of interactive expertise. This allows us to keep redundancy of effort to a minimum, overhead low and, consequently, to offer highly industry-competitive rates.
- Has a **proven track record** and deep skills in the process and practice of technology.

MYTecSoft **partners with clients** to ensure that the unique objectives and deliverables required of each individual project are fully addressed. Our team of experienced consultants represents not only several of the best management institutions in India, but also managers and entrepreneurs from a wide range of professional backgrounds.

MYTecSoft's industry experts combine proven analytical methodologies with an **extensive knowledge base** of domestic and global market dynamics.

MYTecSoft's **value proposition** to clients is in continually meeting and exceeding the highest standards in Set by our clients and partners.
